to Thick branches

Light Weight at 1kg

Ordinary cordless electric pruning shears

ARS

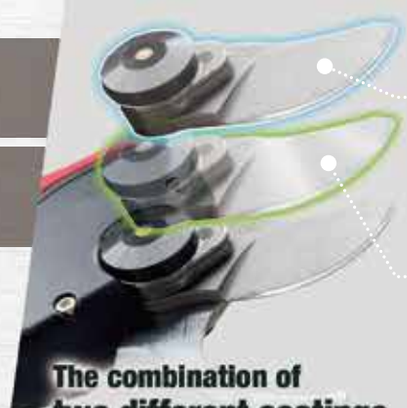

Comparison of cutting surface with the ordinary cordless electric pruning shears

Precise control

Stepless Blade Opening Setting
Designed to meet all needs, from small branches to large branches

Synchronized Trigger Activation
Moves in sync with your finger movement.

Fluorine coating
(enhanced cutting performance)

Hard Chrome Plating
(enhanced cutting performance)

The combination of two different coatings delivers significant performance.

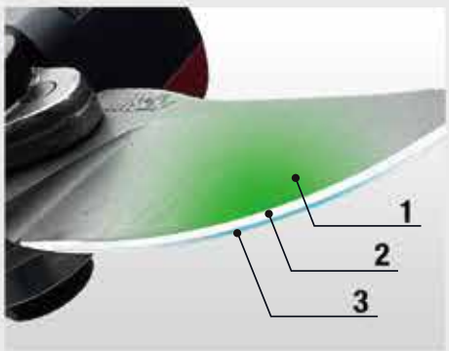

Long-lasting Sharpness & Durability

Made in Japan:
Exceptional Blades
with a Commitment to Quality

- **High-Quality Special Steel:** Made in Japan.
- **Optimized Design:** Years of expertise in designing the upper and lower blades.
- **Effectively designed groove** allows sap to be cleaned off with blade opening and closing.

Grind for Branch Slip Prevention
The sharp blade edge grips branches and cuts thick branches smoothly.

Three-Stage Process for Durability

ARS original blades
Specially designed blades provide a better grip on branches.

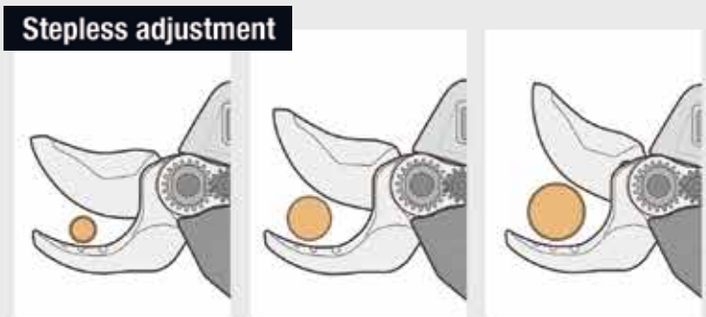

Designed for Ease of Use and Functionality

Light Weight at 1kg

One does all

Stepless adjustment

The blade opening width can be conveniently set to suit different branch diameters.
